Now Hiring!! - Psychiatric APRN (PMHNP) or Psychiatrist

Part-Time or Full-Time | Flexible Scheduling | Competitive Compensation & Benefits

Come Grow With Us at Hawai‘i Center for Children and Families (HCCF)!

HCCF is seeking a compassionate and dedicated Psychiatric APRN (PMHNP) or Psychiatrist to join our growing multidisciplinary team and provide outpatient psychiatric evaluations and medication management services. We believe great care happens when providers work together. At HCCF, you will be part of a supportive, collaborative team of psychologists, therapists, and other behavioral health professionals who value teamwork, communication, and providing individualized care to the children, adolescents, adults, and families we serve.

We understand that every provider has different professional goals, availability, and scheduling needs. We are willing to work with the right candidate to develop an employment arrangement that works for both the provider and HCCF. Whether you are looking for part-time or full-time employment, a flexible schedule, or an opportunity to complement your existing professional commitments, we are open to exploring possibilities together.

Why Join HCCF?

- Flexible Employment: Part-time or full-time opportunities available.
- Competitive Compensation & Benefits: Competitive rates and benefits based on position and experience.
- Work-Life Balance: Flexible scheduling with consideration for your availability and professional commitments.
- A Wonderful Team: Work alongside a welcoming, supportive, and collaborative group of professionals.

- Team-Based Care: Collaborate with psychologists, therapists, and other providers to support comprehensive client care.
- Meaningful Work: Make a difference in the lives of children, adolescents, adults, and families in our community.
- Professional Support: Be part of a team that values your expertise, contributions, and professional goals.

Position Responsibilities

- Conduct psychiatric evaluations and medication management appointments.
- Assess clients' symptoms, treatment needs, and medication effectiveness.
- Prescribe and manage medications within the scope of professional licensure.
- Monitor medication responses, side effects, and treatment progress.
- Maintain accurate, timely, and confidential clinical documentation.
- Collaborate with therapists, psychologists, and other treatment team members to support coordinated care.
- Provide education to clients and families regarding medications and treatment recommendations.
- Maintain compliance with applicable professional, ethical, and regulatory standards.

Qualifications

- Active, unrestricted APRN license with psychiatric certification (PMHNP), or an active medical license with psychiatry specialization.
- Experience in psychiatric medication management preferred.
- Strong clinical judgment and communication skills.

- Experience working with children, adolescents, and/or adults with behavioral health needs preferred.
- Commitment to compassionate, individualized, client-centered care.
- Enjoys collaboration and working as part of a multidisciplinary team.

Employment Opportunities

We are open to discussing part-time or full-time employment, flexible scheduling, compensation, and benefits based on experience and individual provider needs. We want to find the right fit for you and for our team. Let's have a conversation about what that could look like!

Interested in Joining Our Team? We would love to connect! Please submit your résumé and a brief introduction highlighting your experience and interest in psychiatric medication management.

Come work with a wonderful team, enjoy flexibility, and make a meaningful difference!
